INTRODUCTION

Measure LL was approved by at least 55% of the voters of the Lowell Joint Union School District (the "District") pursuant to the provisions of the Strict Accountability in Local School Construction Bonds Act of 2000, codified at Sections 15264 and following of the Education Code. The Act requires the Board of Trustees of the District (the "Board") to appoint a Citizens' Oversight Committee (the "Committee") after the successful bond election.

Legal authority for formation and duties of the Committee is found in Sections 15264 and 15278 to 15282 of the Education Code. The purpose of these Procedures, Policies and Guidelines is to direct the formation and actions of the Committee by reference to the statutory requirements. Where the statutory direction is insufficiently specific, the Board has furnished missing details. In addition, the Board sets forth below its expectations, suggestions, and desires for the operations of the Committee. (All references below to the provisions of law are to the Education Code of the State of California, unless otherwise specified in context. Lowell Joint Education Association (CTA/NEA)

Initial Bargaining Proposal for Sunshine February 2019

The Lowell Joint Education Association (LJEA) exists as a body of members working to promote our students' rights to a quality public education. It is our goal to provide the best conditions and environments for both students and teachers. Through our negotiations we will address the student experience by focusing on the resources needed for student success through the District LCAP goals and the Collective Bargaining Agreement articles. Therefore, consistent with relevant provisions of the Educational Employment Relations Act (Government Code section 3540 et seq.), including Section 3547 of the Government Code, LJEA sunshines the entire contract for collective bargaining with the Lowell Joint School District. All agreements reached on individual items shall be tentative, subject to a final tentative agreement on the contract. Absent a final agreement modifying the contract, the existing contract language shall remain in full effect. The Lowell Joint Education Association reserves the right to create, add to, delete from, amend, and modify its proposals and/or open articles of the contract during the negotiations process. Unless otherwise indicated, proposals are in conceptual format.

While retaining the right to bargain the entire contract, LJEA does plan to focus on several main issues:

Article 13	Working Environment
Article 14	Class Size
Article 15	Teaching Hours and Adjunct Duties
Article 23	Salaries and Salary Schedule

As always we look forward to a positive and productive bargaining session with the District's administrative team and a swift conclusion to the bargaining process.

Regards,

Patty Jacobsen LJEA Bargaining Chair

(cf. 3000 - Concepts and Roles) (cf. 3460 - Financial Reports and Accountability) (cf. 7110 - Facilities Master Plan)

(cf. 7210 - Facilities Financing)

The district shall not enter into indebtedness or liability that in any year exceeds the income and revenue provided for such year, unless two-thirds of the voters approve the obligation or one of the exceptions specified in law applies. (California Constitution, Article 16, Section 18)

When the Board determines that it is in the best interest of the district, the Board may issue debt or order an election to issue debt. The Superintendent or designee shall make recommendations to the Board regarding appropriate financing methods for capital projects or other projects that are authorized purposes for debt issuance. When approved by the Board and/or the voters as applicable, the Superintendent or designee shall administer and coordinate the district's debt issuance program and activities, including the timing of issuance, sizing of issuance, method of sale, structuring of the issue, and marketing strategies.

The Superintendent or designee shall retain a financial advisor, municipal advisor, investment advisor, and other financial services professionals as needed to assist with the structuring of the debt issuance and to provide general advice on the district's debt management program, financing options, investments, and compliance with legal requirements. Contracts for services provided by such advisors may be for a single transaction or for multiple transactions, consistent with the contracting requirements in Education Code 17596. In the event that the district issues debt through a negotiated sale, underwriters may be selected for multiple transactions if multiple issuances are planned for the same project. In addition, the district shall select a legal team on an as-needed basis to assist with debt issuances or special projects.

(cf. 3312 - Contracts) (cf. 3600 - Consultants) (cf. 9270 - Conflict of Interest)

Goals

The district's debt issuance activities and procedures shall be aligned with the district's vision and goals for providing adequate facilities and programs that support student learning and well-being. When issuing debt, the district shall ensure that it:

- 1. Maintains accountability for the fiscal health of the district, including prudent management and transparency of the district's financing programs
- 2. Attains the best possible credit rating for each debt issue in order to reduce interest costs, within the context of preserving financial flexibility and meeting capital funding requirements
- 3. Takes practical precautions and proactive measures to avoid financial decisions that could negatively impact current credit ratings on existing or future debt issues
- 4. Maintains effective communication with rating agencies and, as appropriate, credit enhancers such as bond insurers or other providers of credit or liquidity instruments in order to enhance the creditworthiness, liquidity, or marketability of the debt
- 5. Monitors the district's statutory debt limit in relation to assessed valuation within the district and the tax burden needed to meet long-term debt service requirements.

 Meanwhile, pursuant to the provisions of the California Education Code, the district reserves the right and ability to seek a waiver of the limitations of the California Education Code with respect to general obligation bonded indebtedness from the States Board of Education when the Board shall determine such to be appropriate.
- 6. When determining the timing of debt issuance, considers market conditions, cash flows associated with repayment, and the district's ability to expend the obtained funds in a timely, efficient, and economical manner consistent with federal tax laws
- 7. Determines the amortization (maturity) schedule which will fit best within the overall debt structure of the district at the time the new debt is issued
- 8. Considers the useful lives of assets funded by the debt issue, as well as repair and replacement costs of those assets to be incurred in the future
- 9. Preserves the availability of the district's general fund for operating purposes and other purposes that are not funded by the issuance of voter-approved debt
- 10. Meets the ongoing obligations and accountability requirements associated with the issuance and management of debt under state and federal tax and securities laws

(cf. 0200 - Goals for the School District)

(cf. 7000 - Concepts and Roles)

Authorized Purposes for the Issuance of Debt

The district may issue debt for any of the following purposes:

1. To pay for the cost of capital improvements, including acquiring, constructing, reconstructing, rehabilitating, replacing, improving, extending, enlarging, and/or equipping district facilities

- 2. To refund existing debt
- 3. To provide for cash flow needs

(cf. 3100 - Budget) (cf. 3110 - Transfer of Funds)

Pursuant to Government Code 53854, general operating costs, including, but not limited to, items normally funded in the district's annual operating budget, shall not be financed from debt payable later than 15 months from the date of issuance. The district may deem it desirable to finance cash flow requirements under certain conditions so that available resources better match expenditures within a given fiscal year. To satisfy both state constitutional and statutory constraints, such cash flow borrowing shall be payable from taxes, income, revenue, cash receipts, and other moneys attributable to the fiscal year in which the debt is issued.

Authorized Types of Debt

The Superintendent or designee shall recommend to the Board potential financing method(s) that result in the highest benefit to the district, with the cost of staff and consultants considered. Potential financing sources may include:

- 1. Short-Term Debt
- a. Short-term debt, such as tax and revenue anticipation notes (TRANs), when necessary to allow the district to meet its cash flow requirements (Government Code 53850-53858)
- b. Bond anticipation notes (BANs) to provide interim financing for capital bond projects that will ultimately be paid from general obligation bonds (Education Code 15150)
- c. Grant anticipation notes (GANs) to provide interim financing pending the receipt of grants and/or loans from the state or federal government that have been appropriated and committed to the district (Government Code 53859-53859.08)
- d. Mello-Roos special tax obligations pursuant to Government Code Section 5331 et seq.
- 2. Long-Term Debt
- a. General obligation bonds for projects approved by voters (California Constitution, Article 13A, Section 1; Education Code 15100-15262, 15264-15276; Government Code 53506-53509.5)

(cf. 7214 - General Obligation Bonds)

b. Special tax bonds issued pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code 53311-53368.3)

(cf. 7212 - Mello Roos Districts)

- 3. Lease financing, either short-term or long-term, including certificates of participation (COPs)
- a. Lease financing to fund capital equipment purchases when pay-as-you-go financing is not feasible (Education Code 17450-17453.1)
- b. Lease financing to fund facilities projects when there is insufficient time to obtain voter approval or in instances where obtaining voter approval is either not feasible or unavailable (Education Code 17400-17429, 17456)
- 4. Special financing programs or structures offered by the federal or state government, such as Qualified Zone Academy Bonds or other tax credit obligations or obligations that provide subsidized interest payments, when the use of such programs or structures is determined to result in sufficiently lower financing costs compared to traditional tax-exempt bonds and/or COPs
- 5. Temporary borrowing from other sources such as the County Treasurer

COPs, TRANs, revenue bonds, or any other non-voter approved debt instrument shall not be issued by the district in any fiscal year in which the district has a qualified or negative certification, unless the County Superintendent of Schools determines, pursuant to criteria established by the Superintendent of Public Instruction, that the district's repayment of that indebtedness is probable. (Education Code 42133)

Relationship of Debt to District Facilities Program and Budget

Decisions regarding the issuance of debt for the purpose of financing capital improvement shall be aligned with needs for acquisition, development, and/or improvement of district property and facilities as identified in the district's facilities master plan or other applicable needs assessment, the projected costs of those needs, schedules for the projects, and the expected resources.

The cost of debt issued for major capital repairs or replacements shall be evaluated against the potential cost of delaying such repairs and/or replacing such facilities.

When considering a debt issuance, the Board and the Superintendent or designee shall evaluate both the short-term and long-term implications of the debt issuance and additional operating costs associated with the new projects involved. Such evaluation may include, but is not limited to, the projected ratio of annual debt service to the tax burden on the district's taxpayers and the ratio of annual debt service secured by the general fund to general fund expenditures.

The district may enter into credit enhancement agreements such as municipal bond insurance, surety bonds, letters of credit, and lines of credit with commercial banks, municipal bond insurance companies, or other financial entities when their use is judged to lower borrowing costs, eliminate restrictive covenants, or have a net economic benefit to the financing.

Structure of Debt Issues

The district shall consider the overall impact of the current and future debt burden of the financing when determining the duration of the debt issue.

The district shall design the financing schedule and repayment of debt so as to take best advantage of market conditions, ensure cost effectiveness, provide flexibility, and, as practical, recapture or maximize its debt capacity for future use. Principal amortization will be structured to meet debt repayment, tax rate, and flexibility goals.

For new money debt issuances for capital improvements, the district shall size the debt issuance with the aim of funding capital projects as deemed appropriate by the Board, as long as the issuance is consistent with the overall financing plan, does not exceed the amount authorized by voters, and, unless a waiver is sought and received from the state, will not cause the district to exceed the limitation on debt issuances specified in the California Constitution or Education Code 15102, 15106, 15268 or 15270, as applicable.

To the extent practicable, the district shall also consider credit issues, market factors, and tax law when sizing the district's bond issuance. The sizing of refunding bonds shall be determined by the amount of money that will be required to cover the principal of, any accrued interest on, and any redemption premium for the debt to be paid on the call date (or, in the case of cross-over refundings, the interest on the refunding debt to the crossover date) and to cover appropriate financing costs.

Any general obligation bond issued by the district shall mature within 40 years of the issuance date or as otherwise required by law. (California Constitution, Article 16, Section 18; Government Code 53508.6)

The final maturity of equipment or real property lease obligations will be limited consistent with state law.

Method of Sale

For the sale of any district-issued debt, the Superintendent or designee shall recommend the method of sale with the potential to achieve the lowest financing cost and/or to generate other benefits to the district. Potential methods of sale include:

- 1. A competitive bidding process through which the award is based on, among other factors, the lowest offered true interest cost
- 2. Negotiated sale, subject to parameters set by the Board in connection with approval thereof
- 3. Private placement sale, when the financing can or must be structured for a single or limited number of purchasers or where the terms of the private placement are more beneficial to the district than either a negotiated or competitive sale

Investment of Proceeds

The district shall actively manage the proceeds of debt issued for public purposes in a manner that is consistent with state law governing the investment of public funds and with the permitted securities covenants of related financing documents executed by the district. Where applicable, the district's official investment policy and legal documents for a particular debt issuance shall govern specific methods of investment of bond-related proceeds. Preservation of principal shall be the primary goal of any investment strategy, followed by the availability of funds and then by return on investment.

(cf. 3430 - Investing)

With regard to general obligation bonds, the district shall invest new money bond proceeds in the county treasury pool as required by law. (Education Code 15146)

The management of public funds shall enable the district to respond to changes in markets or changes in payment or construction schedules so as to ensure liquidity and minimize risk.

Refunding/Restructuring

The district may consider refunding or restructuring outstanding debt if it will be financially advantageous or beneficial for debt repayment and/or structuring flexibility. When doing so, the district shall consider the maximization of the district's expected net savings over the life of the debt issuance and, when using a general obligation bond to refund an existing bond, shall ensure that the final maturity of the refunding bond is no longer than the final maturity of the existing bond.

Internal Controls

The Superintendent or designee shall establish internal control procedures to ensure that the proceeds of any debt issuance are directed to the intended use. Such procedures shall assist the district in maintaining the effectiveness and efficiency of operations, properly expending funds, reliably reporting debt incurred by the district and the use of the proceeds, complying with all laws and regulations, preventing fraud, and avoiding conflict of interest.

(cf. 3314 - Payments for Goods and Services) (cf. 3400 - Management of District Assets/Accounts)

The district shall be vigilant in using bond proceeds in accordance with the stated purposes at the time such debt was incurred as defined in the text of the voter-approved bond measure. (Government Code 53410)

When feasible, the district shall issue debt with a defined revenue source in order to preserve the use of the general fund for general operating purposes.

In addition, the Superintendent or designee shall ensure that the district completes, as applicable, all performance and financial audits that may be required for any debt issued by the district, including disclosure requirements applicable to a particular transaction.

Records/Reports

At least 30 days prior to the sale of any debt issue, the Superintendent or designee shall

submit a report of the proposed issuance to the California Debt and Investment Advisory Commission (CDIAC). Such report shall include a self-certification that the district has adopted a policy concerning the use of debt that complies with law and that the contemplated debt issuance is consistent with that policy. (Government Code 8855)

On or before January 31 of each year, the Superintendent or designee shall submit a report to the CDIAC regarding the debt authorized, the debt outstanding, and the use of proceeds of the issued debt for the period from July 1 to June 30. (Government Code 8855)

The Superintendent or designee shall provide initial and any annual or ongoing disclosures required by 17 CFR 240.10b-5 and 240.15c2-12 to the Municipal Securities Rulemaking Board, investors, and other persons or entities entitled to disclosure, and shall ensure that the district's disclosure filings are updated as needed.

The Superintendent or designee shall maintain transaction records of decisions made in connection with each debt issuance, including the selection of members of the financing team, the structuring of the financing, selection of credit enhancement products and providers, and selection of investment products. Each transaction file shall include the official transcript for the financing and pricing information, including interest rates and cost of issuance on the day when the debt was sold ("final number runs"). In addition, documentation evidencing the expenditure of proceeds, the use of debt-financed property by public and private entities, all sources of payment or security for the debt, and investment of proceeds shall be kept for as long as the debt is outstanding, plus the period ending three years after the financial payment date of the debt or the final payment date of any obligations or series of bonds issued to refund directly or indirectly all of any portion of the debt, whichever is later.

The Superintendent or designee shall annually report to the Board regarding debts issued by the district, including information on actual and projected tax rates, an analysis of bonding capacity, ratings on the district's bonds, market update and refunding opportunities, new development for California bond financings, and the district's compliance with post-issuance requirements.

Exceptions and Modifications

The District acknowledges that the capital marketplace fluctuates, municipal finance products change from time to time, and that issuer and investor supply and demand vary. These fluctuations may produce situations that are not anticipated or covered by this policy. As such, the Governing Board may make exceptions or modifications to this policy to achieve the debt management goals outlined above. Management flexibility is appropriate and necessary in such situations, provided specific authorization is granted by the Governing Board.

Policy Development

The Superintendent or designee may develop additional specific elements of a debt management framework through rules and regulations which, along with this policy, shall be reviewed periodically in consideration of changing laws, District needs and market conditions.

Presentation of Second Interim Report 2018/19

INFORMATION/

ACTION

Education Code Sections 35035(g), 42130, and 42131 require Board approval of the District's Second Interim Report 2018/19 and certification by the Board as to whether or not the District certifies they are able to maintain positive cash and fund balances for the current and subsequent two fiscal years. The Board can certify they are certain (positive certification), uncertain (qualified certification), or negative (negative certification) they can meet their current and subsequent two years positive cash and fund balances. The Board approved interim report is due to the Los Angeles County Office of Education by March 18, 2019.

It is recommended the Board of Trustees adopt the 2018/19 Second Interim and approve a "Positive Certification" for the reporting period of the District's ability to meet its financial obligations for the current and two subsequent years based upon the current 2018/19 State budget and proposed 2019/20 State budget assumptions defined by the Los Angeles County Office of Education, and that the Superintendent or designee be authorized to execute the necessary documents.

Adoption of Debt Issuance and Management - Board

ACTION/

Policy 3470

SECOND READING

California Government Code Section 8855(i) requires that the District's report of proposed debt issuance that must be filed with the California Debt and Investment Advisory Commission include a certification by the District that (1) it has adopted local debt policies concerning the use of debt, and (2) the contemplated debt issuance is consistent with those local debt policies. SB 1029 provides that a local debt policy must include all of the following: (a) the purposes for which the debt proceeds may be used; (b) the types of debt that may be issued; (c) the relationship of the debt to, and integration with, the issuer's capital improvement program or budget, if applicable; (d) policy goals related to the issuer's planning goals and objectives; and (e) the internal control procedures that the issuer has implemented, or will implement, to ensure that the proceeds of the proposed debt issuance will be directed to the intended use.

The purpose of the proposed Board Policy 3470 - Debt Issuance and Management is to provide a functional tool for debt management that complies with the requirements of Government Code Section 8855(i). The proposed policy was adapted from the California School Boards Association's model in consultation with the District's Municipal Advisor, Fieldman, Rolapp & Associates, and Bond Counsel, Orrick, Herrington & Sutcliffe LLP.

It is recommended that Board Policy 3470 Debt Issuance and Management and accompanying Administrative Regulations be approved, and that the Superintendent or designee be authorized to execute the necessary documents.

Superintendent's Comment:

APPROVAL RECOMMENDED.

Debt Issuance And Management

The Governing Board is committed to long-term capital and financial planning and recognizes that the issuance of debt is a key source for funding the improvement and maintenance of school facilities and managing cash flow. Any debt issued by the district shall be consistent with law and this policy.

(cf. 3000 - Concepts and Roles)

(cf. 3460 - Financial Reports and Accountability)

(cf. 7110 - Facilities Master Plan)

(cf. 7210 - Facilities Financing)

The district shall not enter into indebtedness or liability that in any year exceeds the income and revenue provided for such year, unless two-thirds of the voters approve the obligation or one of the exceptions specified in law applies. (California Constitution, Article 16, Section 18)

When the Board determines that it is in the best interest of the district, the Board may issue debt or order an election to issue debt. The Superintendent or designee shall make recommendations to the Board regarding appropriate financing methods for capital projects or other projects that are authorized purposes for debt issuance. When approved by the Board and/or the voters as applicable, the Superintendent or designee shall administer and coordinate the district's debt issuance program and activities, including the timing of issuance, sizing of issuance, method of sale, structuring of the issue, and marketing strategies.

The Superintendent or designee shall retain a financial advisor, municipal advisor, investment advisor, and other financial services professionals as needed to assist with the structuring of the debt issuance and to provide general advice on the district's debt management program, financing options, investments, and compliance with legal requirements. Contracts for services provided by such advisors may be for a single transaction or for multiple transactions, consistent with the contracting requirements in Education Code 17596. In the event that the district issues debt through a negotiated sale, underwriters may be selected for multiple transactions if multiple issuances are planned for the same project. In addition, the district shall select a legal team on an as-needed basis to assist with debt issuances or special projects.

(cf. 3312 - Contracts)

(cf. 3600 - Consultants)

(cf. 9270 - Conflict of Interest)

Goals

The district's debt issuance activities and procedures shall be aligned with the district's

vision and goals for providing adequate facilities and programs that support student learning and well-being. When issuing debt, the district shall ensure that it:

- 1. Maintains accountability for the fiscal health of the district, including prudent management and transparency of the district's financing programs
- 2. Attains the best possible credit rating for each debt issue in order to reduce interest costs, within the context of preserving financial flexibility and meeting capital funding requirements
- 3. Takes practical precautions and proactive measures to avoid financial decisions that could negatively impact current credit ratings on existing or future debt issues
- 4. Maintains effective communication with rating agencies and, as appropriate, credit enhancers such as bond insurers or other providers of credit or liquidity instruments in order to enhance the creditworthiness, liquidity, or marketability of the debt
- 5. Monitors the district's statutory debt limit in relation to assessed valuation within the district and the tax burden needed to meet long-term debt service requirements.

 Meanwhile, pursuant to the provisions of the California Education Code, the district reserves the right and ability to seek a waiver of the limitations of the California Education Code with respect to general obligation bonded indebtedness from the States Board of Education when the Board shall determine such to be appropriate.
- 6. When determining the timing of debt issuance, considers market conditions, cash flows associated with repayment, and the district's ability to expend the obtained funds in a timely, efficient, and economical manner consistent with federal tax laws
- 7. Determines the amortization (maturity) schedule which will fit best within the overall debt structure of the district at the time the new debt is issued
- 8. Considers the useful lives of assets funded by the debt issue, as well as repair and replacement costs of those assets to be incurred in the future
- 9. Preserves the availability of the district's general fund for operating purposes and other purposes that are not funded by the issuance of voter-approved debt
- 10. Meets the ongoing obligations and accountability requirements associated with the issuance and management of debt under state and federal tax and securities laws

(cf. 0000 - Vision)

(cf. 0200 - Goals for the School District)

(cf. 7000 - Concepts and Roles)

Authorized Purposes for the Issuance of Debt

The district may issue debt for any of the following purposes:

- 1. To pay for the cost of capital improvements, including acquiring, constructing, reconstructing, rehabilitating, replacing, improving, extending, enlarging, and/or equipping district facilities
- 2. To refund existing debt
- 3. To provide for cash flow needs

(cf. 3100 - Budget) (cf. 3110 - Transfer of Funds)

Pursuant to Government Code 53854, general operating costs, including, but not limited to, items normally funded in the district's annual operating budget, shall not be financed from debt payable later than 15 months from the date of issuance. The district may deem it desirable to finance cash flow requirements under certain conditions so that available resources better match expenditures within a given fiscal year. To satisfy both state constitutional and statutory constraints, such cash flow borrowing shall be payable from taxes, income, revenue, cash receipts, and other moneys attributable to the fiscal year in which the debt is issued.

Authorized Types of Debt

The Superintendent or designee shall recommend to the Board potential financing method(s) that result in the highest benefit to the district, with the cost of staff and consultants considered. Potential financing sources may include:

- 1. Short-Term Debt
- a. Short-term debt, such as tax and revenue anticipation notes (TRANs), when necessary to allow the district to meet its cash flow requirements (Government Code 53850-53858)
- b. Bond anticipation notes (BANs) to provide interim financing for capital bond projects that will ultimately be paid from general obligation bonds (Education Code 15150)
- c. Grant anticipation notes (GANs) to provide interim financing pending the receipt of grants and/or loans from the state or federal government that have been appropriated and committed to the district (Government Code 53859-53859.08)
- Mello-Roos special tax obligations pursuant to Government Code Section 5331 et seq.
- 2. Long-Term Debt
- a. General obligation bonds for projects approved by voters (California Constitution, Article 13A, Section 1; Education Code 15100-15262, 15264-15276; Government Code 53506-53509.5)

(cf. 7214 - General Obligation Bonds)

b. Special tax bonds issued pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code 53311-53368.3)

(cf. 7212 - Mello Roos Districts)

- 3. Lease financing, either short-term or long-term, including certificates of participation (COPs)
- a. Lease financing to fund capital equipment purchases when pay-as-you-go financing is not feasible (Education Code 17450-17453.1)
- b. Lease financing to fund facilities projects when there is insufficient time to obtain voter approval or in instances where obtaining voter approval is either not feasible or unavailable (Education Code 17400-17429, 17456)
- 4. Special financing programs or structures offered by the federal or state government, such as Qualified Zone Academy Bonds or other tax credit obligations or obligations that provide subsidized interest payments, when the use of such programs or structures is determined to result in sufficiently lower financing costs compared to traditional tax-exempt bonds and/or COPs
- 5. Temporary borrowing from other sources such as the County Treasurer

COPs, TRANs, revenue bonds, or any other non-voter approved debt instrument shall not be issued by the district in any fiscal year in which the district has a qualified or negative certification, unless the County Superintendent of Schools determines, pursuant to criteria established by the Superintendent of Public Instruction, that the district's repayment of that indebtedness is probable. (Education Code 42133)

Relationship of Debt to District Facilities Program and Budget

Decisions regarding the issuance of debt for the purpose of financing capital improvement shall be aligned with needs for acquisition, development, and/or improvement of district property and facilities as identified in the district's facilities master plan or other applicable needs assessment, the projected costs of those needs, schedules for the projects, and the expected resources.

The cost of debt issued for major capital repairs or replacements shall be evaluated against the potential cost of delaying such repairs and/or replacing such facilities.

When considering a debt issuance, the Board and the Superintendent or designee shall evaluate both the short-term and long-term implications of the debt issuance and additional operating costs associated with the new projects involved. Such evaluation may include, but is not limited to, the projected ratio of annual debt service to the tax burden on the district's taxpayers and the ratio of annual debt service secured by the general fund to general fund

expenditures.

The district may enter into credit enhancement agreements such as municipal bond insurance, surety bonds, letters of credit, and lines of credit with commercial banks, municipal bond insurance companies, or other financial entities when their use is judged to lower borrowing costs, eliminate restrictive covenants, or have a net economic benefit to the financing.

Structure of Debt Issues

The district shall consider the overall impact of the current and future debt burden of the financing when determining the duration of the debt issue.

The district shall design the financing schedule and repayment of debt so as to take best advantage of market conditions, ensure cost effectiveness, provide flexibility, and, as practical, recapture or maximize its debt capacity for future use. Principal amortization will be structured to meet debt repayment, tax rate, and flexibility goals.

For new money debt issuances for capital improvements, the district shall size the debt issuance with the aim of funding capital projects as deemed appropriate by the Board, as long as the issuance is consistent with the overall financing plan, does not exceed the amount authorized by voters, and, unless a waiver is sought and received from the state, will not cause the district to exceed the limitation on debt issuances specified in the California Constitution or Education Code 15102, 15106, 15268 or 15270, as applicable.

To the extent practicable, the district shall also consider credit issues, market factors, and tax law when sizing the district's bond issuance. The sizing of refunding bonds shall be determined by the amount of money that will be required to cover the principal of, any accrued interest on, and any redemption premium for the debt to be paid on the call date (or, in the case of cross-over refundings, the interest on the refunding debt to the crossover date) and to cover appropriate financing costs.

Any general obligation bond issued by the district shall mature within 40 years of the issuance date or as otherwise required by law. (California Constitution, Article 16, Section 18; Government Code 53508.6)

The final maturity of equipment or real property lease obligations will be limited consistent with state law.

Method of Sale

For the sale of any district-issued debt, the Superintendent or designee shall recommend the method of sale with the potential to achieve the lowest financing cost and/or to generate other benefits to the district. Potential methods of sale include:

1. A competitive bidding process through which the award is based on, among other factors, the lowest offered true interest cost

- 2. Negotiated sale, subject to parameters set by the Board in connection with approval thereof
- 3. Private placement sale, when the financing can or must be structured for a single or limited number of purchasers or where the terms of the private placement are more beneficial to the district than either a negotiated or competitive sale

Investment of Proceeds

The district shall actively manage the proceeds of debt issued for public purposes in a manner that is consistent with state law governing the investment of public funds and with the permitted securities covenants of related financing documents executed by the district. Where applicable, the district's official investment policy and legal documents for a particular debt issuance shall govern specific methods of investment of bond-related proceeds. Preservation of principal shall be the primary goal of any investment strategy, followed by the availability of funds and then by return on investment.

(cf. 3430 - Investing)

With regard to general obligation bonds, the district shall invest new money bond proceeds in the county treasury pool as required by law. (Education Code 15146)

The management of public funds shall enable the district to respond to changes in markets or changes in payment or construction schedules so as to ensure liquidity and minimize risk.

Refunding/Restructuring

The district may consider refunding or restructuring outstanding debt if it will be financially advantageous or beneficial for debt repayment and/or structuring flexibility. When doing so, the district shall consider the maximization of the district's expected net savings over the life of the debt issuance and, when using a general obligation bond to refund an existing bond, shall ensure that the final maturity of the refunding bond is no longer than the final maturity of the existing bond.

Internal Controls

The Superintendent or designee shall establish internal control procedures to ensure that the proceeds of any debt issuance are directed to the intended use. Such procedures shall assist the district in maintaining the effectiveness and efficiency of operations, properly expending funds, reliably reporting debt incurred by the district and the use of the proceeds, complying with all laws and regulations, preventing fraud, and avoiding conflict of interest.

(cf. 3314 - Payments for Goods and Services) (cf. 3400 - Management of District Assets/Accounts)

The district shall be vigilant in using bond proceeds in accordance with the stated purposes at the time such debt was incurred as defined in the text of the voter-approved bond

measure. (Government Code 53410)

When feasible, the district shall issue debt with a defined revenue source in order to preserve the use of the general fund for general operating purposes.

In addition, the Superintendent or designee shall ensure that the district completes, as applicable, all performance and financial audits that may be required for any debt issued by the district, including disclosure requirements applicable to a particular transaction.

Records/Reports

At least 30 days prior to the sale of any debt issue, the Superintendent or designee shall submit a report of the proposed issuance to the California Debt and Investment Advisory Commission (CDIAC). Such report shall include a self-certification that the district has adopted a policy concerning the use of debt that complies with law and that the contemplated debt issuance is consistent with that policy. (Government Code 8855)

On or before January 31 of each year, the Superintendent or designee shall submit a report to the CDIAC regarding the debt authorized, the debt outstanding, and the use of proceeds of the issued debt for the period from July 1 to June 30. (Government Code 8855)

The Superintendent or designee shall provide initial and any annual or ongoing disclosures required by 17 CFR 240.10b-5 and 240.15c2-12 to the Municipal Securities Rulemaking Board, investors, and other persons or entities entitled to disclosure, and shall ensure that the district's disclosure filings are updated as needed.

The Superintendent or designee shall maintain transaction records of decisions made in connection with each debt issuance, including the selection of members of the financing team, the structuring of the financing, selection of credit enhancement products and providers, and selection of investment products. Each transaction file shall include the official transcript for the financing and pricing information, including interest rates and cost of issuance on the day when the debt was sold ("final number runs"). In addition, documentation evidencing the expenditure of proceeds, the use of debt-financed property by public and private entities, all sources of payment or security for the debt, and investment of proceeds shall be kept for as long as the debt is outstanding, plus the period ending three years after the financial payment date of the debt or the final payment date of any obligations or series of bonds issued to refund directly or indirectly all of any portion of the debt, whichever is later.

The Superintendent or designee shall annually report to the Board regarding debts issued by the district, including information on actual and projected tax rates, an analysis of bonding capacity, ratings on the district's bonds, market update and refunding opportunities, new development for California bond financings, and the district's compliance with post-issuance requirements.

Exceptions and Modifications

The District acknowledges that the capital marketplace fluctuates, municipal finance products change from time to time, and that issuer and investor supply and demand vary. These fluctuations may produce situations that are not anticipated or covered by this policy. As such, the Governing Board may make exceptions or modifications to this policy to achieve the debt management goals outlined above. Management flexibility is appropriate and necessary in such situations, provided specific authorization is granted by the Governing Board.

Policy Development

The Superintendent or designee may develop additional specific elements of a debt management framework through rules and regulations which, along with this policy, shall be reviewed periodically in consideration of changing laws, District needs and market conditions.

Superintendent's Comment:

To: President Shackelford, and Members, Board of Trustees

From: Jim Coombs, Superintendent of Schools

Subject: Approval to Delegate Authority to the Superintendent of

Schools, or Designee, to Award Contracts for Construction

and Modernization Projects Districtwide

The District will undergo construction and modernization projects at all the District sites, including, but not limited to, upgrading aging roof and heating, ventilation and air conditioning (HVAC) systems. There will be a need for additional portables to temporarily house staff and students at the sites during the work. These projects will require the awarding of contracts for site work, construction, roofing, electrical, plumbing, HVAC, construction management, and architectural designs.

ACTION

Board of Trustee meetings are typically scheduled once a month. Staff wishes to be able to award contracts as soon as possible in order to take advantage of time in the very competitive construction world. Waiting to award a contract for a construction project can result in increased costs to the District due to the heavy competition for construction trades. Therefore, delegation of authority to the Superintendent, or designee, to award such contracts will ensure the District can award contracts as soon as possible.

In addition, District outlay of capital funds for these projects can qualify the District to receive "matching funds" of 60% of the eligible expenditures from the state when funds are available as long as the District has submitted applications for modernization eligibility. The Board is asked to approve the Superintendent, or designee, to complete and file the necessary applications for all eligible sites District-wide so the District can maximize the expenditure of these local funds for future construction projects.

It is recommended that the Board approve the Delegation of Authority to the Superintendent of Schools, or Designee, to Award Contracts for the Construction and Modernization Projects District wide, and that the Superintendent, or designee, be authorized to execute the necessary documents.
