

## **ACCEPTABLE USE OF TECHNOLOGY AND ELECTRONIC INFORMATION RESOURCES**

The Governing Board recognizes that technological resources can enhance employee performance by improving access to and exchange of information; offering effective tools to assist in providing a quality instructional program; facilitating communications with parents/guardians, students, and the community; supporting district and school operations, and improving access to and exchange of information. The Board expects all employees to learn to use the available technological resources that will assist them in the performance of their job responsibilities. As needed, employees shall receive professional development in the appropriate use of these resources.

Employees shall be responsible for the appropriate use of technology and shall use the district's technological resources for purposes related to their employment. Personal activities will be limited and will in no way interfere with the educational/professional use for which hardware and software are intended. Such use is a privilege, which may be revoked at any time.

Computer files and electronic communications, including email and voice mail, are not private. In order to minimize risk to the District, technological resources shall not be used to transmit confidential information about students, employees, or District operations without authority.

### **Online/Internet Services**

The Superintendent or designee shall ensure that all District computers with Internet access have a technology protection measure that prevents access to visual depictions that are obscene or child pornography and that the operation of such measures is enforced. The Superintendent or designee may disable the technology protection measure during use by an adult to enable access for bona fide research or other lawful purpose. (20 USC 6777; 47 USC 254)

To ensure proper use, the Superintendent or designee may monitor employee usage of technological resources, including the accessing of email and stored files. Monitoring may occur at any time without advance notice or consent. When passwords are used, they must be known to the Superintendent or designee so that he/she may have system access.

The Superintendent or designee shall establish administrative regulations and an Acceptable Use Agreement which outline employee obligations and responsibilities related to the use of District technology. He/she also may establish guidelines and limits on the use of technological resources. Inappropriate use may result in a cancellation of the employee's user privileges, disciplinary action, and/or legal action in accordance with law, Board Policy, and Administrative Regulation.

**ACCEPTABLE USE OF TECHNOLOGY AND ELECTRONIC INFORMATION RESOURCES (continued)**

The Superintendent or designee shall provide copies of related policies, regulations, and guidelines to all employees who use the District's technological resources. Employees shall be required to acknowledge in writing that they have read and understood the District's Acceptable Use Agreement.

**Use of Cellular Phone or Mobile Communications Devices**

An employee shall not use a cellular phone or other mobile communications device for personal business while on duty, except in emergency situations and/or during scheduled work breaks.

Any employee that uses a cell phone or mobile communications device in violation of law, Board Policy, or Administrative Regulation shall be subject to discipline and may be referred to law enforcement officials as appropriate.
